# Inflation Data

Aaron Peikert

2023-01-26

The dataset we use stems from the Bank of England Research datasets.
I quote:

> This dataset contains the individual responses to our Inflation Attitudes Survey, a quarterly survey of people's feelings about inflation and other economic variables like the interest rate.

For this dataset the Bank of England asked 214.110 people for their opinion on the perceived and expected inflation. The survey has run quarterly since 2001.

A code chunk is for longer code/output:

```
with(mtcars, plot(hp, mpg))
```

hp

Inline code is for single numbers/short text: We have 32 cars.
